

Our preload data SIMs make it easy and affordable to use mobile data whilst abroad in 43 countries

Value SIM Benefits

- **Low Cost** avoid “Bill Shock” and exorbitant roaming charges
- **High Speed** connects to 3G networks
- **Value** the best “local” rates from only 8c/MB!
- **Coverage** work or play in 43 countries
- **Security** no public Wi-Fi concerns
- **Convenience** SIM activates on arrival
- **Roam** no reliance on finding hotspots or buying local SIM cards
- **Voice & SMS** use WhatsApp, Skype, MS Lync etc. to stay in touch
- **Tethering** create your own hotspot and connect multiple devices

PocketWifi (optional)

PocketWifi is a mobile wireless router that creates your own personal secure Wi-Fi hotspot, allowing up to 5 mobile devices (smartphones, tablets & laptops) connections at once.

This credit card size, lightweight device (70 grams) does not require any setup or installation; just turn on and you're ready to enjoy high-speed data access wherever you may travel. With execMobile, you'll never look for a Wi-Fi connection again.

execMobile' data roaming services offers international travellers instant Internet access anytime, anywhere at a fraction of the cost of your mobile operators' offering.

PocketWifi or SIM Only

Our PocketWifi offers a simple, convenient way to connect multiple devices or share your connection. The Value SIM requires you to configure the APN settings on your device.

Equipment	Price (incl. delivery)	Description
PocketWifi (excludes SIM)	R 499 (once off cost)	Mobile cellular router
Value 1GB SIM	R 397 (once off cost)	Preloaded 1GB data SIM Data valid 30 days
Value 3GB SIM	R 674 (once off cost)	Preloaded 3GB data SIM Data valid 90 days

Value explained

- Data activates on arrival in any of the 43 supported destinations
- Our preloaded Value SIMs works in any unlocked device (smartphone, tablet etc.)
- The clever 3-in-1 SIM design can be snapped out to make a Standard, Micro or Nano SIM
- If you run out of data, you will NOT be able to top up your SIM
- No online account or monitoring of your data balance is possible with value SIMs
- You will need to monitor / keep track of your usage via the devices you insert the SIM into
- We only use one providers network in each country to keep costs down
